	Distance between filter and lot lines : _____		
	Distance between the pool wall and the filter : _____		
	Distance between the pool wall and the heat pump : _____		
	Distance between the heat pump and the lot line : _____		
Access made by	<input type="checkbox"/> A ladder equipped with a safety gate. (Section A) <input type="checkbox"/> A plateforme detached from the residence. (Section B) <input type="checkbox"/> A terrace attached to the residence (Section C) <input type="checkbox"/> A permanent fence. (Section D) <input type="checkbox"/> A rigid lid equipped with a locking system. (Spa only)		

POOLSIDE APPLIANCES

Type of devices provided	<input type="checkbox"/> Filter	<input type="checkbox"/> Heat pump	<input type="checkbox"/> Pump
Appliances localisation	<input type="checkbox"/> More than 1m from the pool wall or the fence surrongind the pool <input type="checkbox"/> Inside the area protected by a fence with a minimum height of 1.2m <input type="checkbox"/> Inside an auxiliary building (garage, shed, etc.) <input type="checkbox"/> Under a platform or deck that prevents access to the pool from the device.		
	<p>ATTENTION : No fixed structures or equipment that could be used to climb over the wall of a pool or fence should be installed within 1 m of it. (E.g., a doghouse, a children's play structure, a retaining wall, an unprotected staircase leading to a platform, etc.).</p>		
Pipes connected to the pool	<input type="checkbox"/> The conduits connecting the appliances to the pool shall be flexible and shall be installed in such a way as to prevent climbing of the pool wall or fence, as applicable.		

SECTION A : A LADDER EQUIPPED WITH A SAFETY GATE

Type of ladder	<input type="checkbox"/> Equipped with a safety door that closes and locks automa- tically. <input type="checkbox"/> Protected by a fence with a minimum height of 1.2m.	
----------------	---	---

SECTION B : ACCESS VIA A PLATFORM SEPARATE FROM THE RESIDENCE

Platform project	<input type="checkbox"/> Construction	<input type="checkbox"/> Extension	<input type="checkbox"/> Modification	
Localisation	<input type="checkbox"/> Front yard <input type="checkbox"/> Back yard <input type="checkbox"/> Secondary front yard	<input type="checkbox"/> Left side yard <input type="checkbox"/> Right side yard		
Dimensions	Width :	Length :	Height of the floor :	
Projected distances	Front line :	Left side line :		
	Back line :	Right side line :		
Guardrail	Height :	Material :		
Mandatory features of the door that will provide access to the platform	<input type="checkbox"/> It will have a minimum height of 1,2 m. <input type="checkbox"/> It shall be free of any fasteners, protrusions or openwork sections that could facilitate climbing. <input type="checkbox"/> It will prevent the passage of a spherical object with a diameter of 10 cm. <input type="checkbox"/> It will be equipped with spring hinges (automatic closure). <input type="checkbox"/> It will be equipped with a safety latch (automatic lock) installed on the pool side.			
Foundation	Ex: Blocs, pious, ect. :	Finition of the floor :		

SECTION C : ACCESS VIA A TERRACE ATTACHED TO THE RESIDENCE

Terrace project	<input type="checkbox"/> Construction	<input type="checkbox"/> Extension	<input type="checkbox"/> Modification	
Localisation	<input type="checkbox"/> Front yard <input type="checkbox"/> Back yard <input type="checkbox"/> Secondary front yard	<input type="checkbox"/> Left side yard <input type="checkbox"/> Right side yard		
Dimensions	Width :	Length :	Height of the floor :	
Projected distances	Front line :	Left side line :		
	Back line :	Right side line :		
Guardrail	Height :	Material :		
Mandatory features of the door that will provide access to the platform	<input type="checkbox"/> It will have a minimum height of 1,2 m. <input type="checkbox"/> It shall be free of any fasteners, protrusions or openwork sections that could facilitate climbing. <input type="checkbox"/> It will prevent the passage of a spherical object with a diameter of 10 cm. <input type="checkbox"/> It will be equipped with spring hinges (automatic closure). <input type="checkbox"/> It will be equipped with a safety latch (automatic lock) installed on the pool side.			
Foundation	Ex: Blocs, pious, ect. :	Finition of the floors :		

SECTION D : ACCESS FROM A PERMANENT FENCE

Fence project	<input type="checkbox"/> Construction	<input type="checkbox"/> Replacement	<input type="checkbox"/> Modification	
Localisation	<input type="checkbox"/> Front yard	<input type="checkbox"/> Left side yard	<input type="checkbox"/> Right side yard	
	<input type="checkbox"/> Back yard	<input type="checkbox"/> Right side yard		
	<input type="checkbox"/> Secondary front yard			
Projected distances	Front line :	Left side line :	Main building :	
	Back line :	Right side line :		
Projected height	Back yard :	Side yard :	Front yard :	
Length	Total :	<i>*Total linear length of the fence segments.</i>		
Model	<i>*Treated wood fence, chain link (frost), aluminium, wrought iron, etc.</i>			
Mandatory features of the door that will provide access to the platform	<input type="checkbox"/>	For a frost fence, the mesh will have a maximum width or 30mm or will be slatted		
	<input type="checkbox"/>	It will have a minimum height of 1,2 m.		
	<input type="checkbox"/>	It shall be free or any fasteners, protrusions or openwork sections that could facilitate climbing.		
	<input type="checkbox"/>	It will prevent the passage of a spherical object with a diameter of 10 cm.		
	<input type="checkbox"/>	It will be quipped with spring hinges (automatic closure).		
	<input type="checkbox"/>	It will be equipped with a safety latch (automatic lock) installed on the pool side.		

DOCUMENTS REQUIRED WHEN SUBMITTING THE APPLICA-

- Permit application form** signed
- Proxy** *If applicable*
- Plans** A scaled drawing showing the proposed location of the pool and its accessories (filter, slide, diving board, platform, etc.), the location of existing and proposed buildings, the location of the existing or proposed fence, details on the height, materials, and structure of this fence, and the location of electrical wires on the property.

Other documents may be required depending on the case. A missing document will prevent the application from being processed.

DECLARATION

The undersigned declares that the above information is accurate and complete and undertakes to submit all documents required for this application. The undersigned also declares that they have read and understood the applicable municipal procedures and regulations. Finally, the undersigned understands that this form does not constitute a permit or certificate of authorization.

I acknowledge that I have received all the information necessary to give my free, clear, and informed consent for the collection of my personal information.

Signature : _____

Date : _____

Note : The official responsible for the file has **45 days** (if the application is compliant), depending on the nature of the proposed work, calculated from the moment the application is substantially complete for municipal analysis purposes, to respond to the application. (Regulation for the administration of urban planning regulations RU-901-2014, sections 54 and 73).
